- S Built-in brush location plate** for simple and fast fitting of brushes
- T Retractable transport rollers** suspend load on brushes while not in operation
- U Cylindrical brushes**, easy to remove without using any tools. Available in multiple colours for hygiene control
- V Easily removable waste water tray**
- W Safety thermal cut-out control**
- X Specially coated aluminium body housing** for high mechanical resistance

The specially designed brushes can clean any type of floor, be it flat or profiled. The bristles of the brush can reach deep down into the irregularities of floors, such as grouted tiles, studded rubber, entrance matting, escalator steps etc, and yet they are equally effective for scrubbing and buffing flat surfaces such as vinyl, terrazzo and wood. On carpets the versatile brushes extract the dirt, lift the pile and leave the carpet clean, well groomed and dry within minutes.
