- W Safety thermal cut-out control**
- X Specially coated aluminium body housing** for high mechanical resistance
- Y Long life filter unit**
- Z Self retractable spray jet nozzle**

The specially designed brushes can clean any type of floor, be it flat or profiled. The bristles of the brush can reach deep down into the irregularities of floors, such as grouted tiles, studded rubber, entrance matting, escalator steps etc, and yet they are equally effective for scrubbing and buffing flat surfaces such as vinyl, terazzo and wood. On carpets the versatile brushes extract the dirt, lift the pile and leave the carpet clean, well groomed and dry within minutes.
